With its unique, patented interlocking spacer lugs, Eco-Priora® provides secure structural performance for permeable interlocking concrete pavements (PICP’s). It works well under vehicular traffic, especially when compared to other “non-interlocking” permeable pavers.

The flat, durable surface is also well suited for pedestrian pavements and the narrow joints comply with the most recent requirements of the ADA (Americans with Disabilities Act).

Use Eco-Priora for:
- Driveways
- Parking Lots
- Commercial Applications
- Residences
- Pedestrian Plazas
