Our Family Tradition

***For over 115 years, customers across the
Pacific Northwest have trusted Mutual Materials.***

As a local family-owned and operated company with fifth-generation family leadership, Mutual Materials was founded in 1900 by Daniel Houlahan as Builders Brick Company. Following the Great Seattle Fire of 1890, our brick literally rebuilt Seattle and can be seen in many historic buildings today.

As our company grew and expanded with new product lines and new geographic locations, the company name changed to Mutual Materials in the 1960's. Our products continue to build beauty that lasts across communities throughout the Pacific Northwest.

Building Beauty That Lasts

We help our customers build better, more inviting communities by providing appealing hardscape and masonry products that stand the test of time.

Across Mutual Materials, we are proud of what we do and are inspired to see our products chosen by professionals to build communities. Our products build beauty that lasts through hospitals, schools, stadiums, businesses, family homes, public parks, and backyards.

Mutual Materials has long served a professional network of architects, interior designers, builders, masons, and landscape design professionals. Today we also serve residential homeowners, both through our professional networks and through our retail branch locations.

Kitchens & Home Interiors

Stone and brick veneers, once the secret of interior design professionals, are a new trend in upscale residential homes. From timeless and classic exposed brick walls, to the modern look of glazed brick, Slimbrick® tile adds character and depth to your home interiors. Stone veneers lend unique craftsmanship and lasting style to kitchens and bathrooms, stone fireplaces, and more.
