

Mutual High Back 58" Circle Fire Pit

Size: Outside Diameter: 58"
Inside Diameter: 42"

Piece Count 8" Tapered Units: 46
8" Jumbo Units: 13
8" Caps: 23

Fire pits should only be built over a **non-combustible surface** like concrete patios or a compacted gravel base. **Never install a fire pit over a wood deck.**

Instructions

1. Remove packaging from the fire pit on the pallet.
2. Prepare the fireplace location by establishing a level surface about 65" x 65".

3. Set the first layer of the fire pit, with the lugs facing upward, on top of the prepared surface.

4. Transfer the second layer. Stagger the blocks on the second layer so the seams are not aligned.

5. Transfer the 8" jumbo units for the third layer.

6. Place 8" caps around the top layer.
7. Fill the inside of the fire pit with gravel or base rock a minimum 2 inches deep.
