

BOARDWALK

Made in BC

UNIT OF MEASURE

The Unit of Measure for Boardwalk is Layer.

INSTALLATION

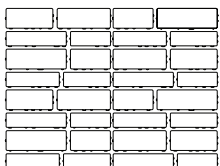

A plate compactor should be used over the entire surface following installation. It's recommended to use Paver Saver Mat (103164) between the plate compactor and surface. Boardwalk is compatible with some machine paver laying systems. Boardwalk can also be installed as a permeable paver. It's recommended to use Polybind Complete G2 Polymeric Sand for commercial applications if not using for permeable paving. Product designed to be installed in a running bond pattern.

PALLET INFORMATION

Sold in full pallets only. Each pallet contains 76 sq. ft. between the eight sizes. All sizes come in one pallet and are not sold individually. Contact your local Barkman sales representative for further details.
