

VERANO PAVER

UNIT OF MEASURE

The Unit of Measure for Verano is Layer.

INSTALLATION

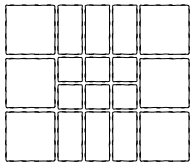

Barkman recommends the use of polymeric sand for commercial applications. A plate compactor should be used over the entire surface following installation with the use of a Paver Saver Mat. Verano is a non-tumbled paver with smooth face.

PALLET INFORMATION

Sold in full pallets only. All three sizes come on a single pallet and are not sold individually. Each pallet contains 96 sq. ft. with all three sizes combined. Contact your local Barkman sales representative for further details.
